

HOME CARE WEBINAR TRAININGS

ICD-9-CM Code Essentials: Preparing for October 1st

Presented by: Judy Adams, Consultant and Owner,
Adams Home Care Consulting, Inc.

Hear the latest update on ICD-9-CM coding for 2012. Learn about the new codes, case mix designation and get highlights of the latest update to the Official Coding Guidelines!

Description

Code changes go into effect October 1, 2011. There is no grace period.
Are you ready?

The influence of ICD-10 continues to be seen in the changes to ICD-9-CM codes. The recently released ICD-9-CM codes for FY2012 include over 300 new and revised codes as well as multiple revisions to the existing code set, all designed to provide greater specificity. Since we no longer have a grace period to transition to the coding changes, all health care providers will need to be ready to change to the new codes and avoid using the invalid ones on October 1st.

This 90-minute power webinar session will guide attendees through the new and changed codes impacting home health services. We'll also discuss those codes that have received case mix designation for 2012, while reviewing the changes in the ICD-9-CM Official Guidelines for Coding and Reporting.

This webinar session will cover:

- New skin cancer codes: learn which ones will add both case-mix and non-routine supply points.
- New codes for dementia, interstitial pneumonitis and influenza, respiratory conditions, and coronary atherosclerosis.
- Expanded codes for E. coli, thalassemia and pancytopenia.
- Specific V codes applicable to home health.
- Changes in the Official Coding Guidelines effective 10/1/11.
- Codes to receive case mix designation for 2012.
- Much more!
